Other(s):							

Description of the Event:

While doing the shuttering work in part-3 stair case, the sub-con worker (IP-Walid) finished fixing one piece of timber and tried to turn back to take another timber, at that time his right hand got hit with the steel binding wire that was protruding from the steel structure (as shown in the picture).

He got a cut in his hand right hand.

He was given first aid in site's first aid room.

Immediate Action(s) Taken to Prevent Reoccurrence (If Any):

First aid was given to the IP.

Incident was discussed with the sub-con team.

All binding wires must be bended and sharp edges must be covered before start of work.

Access must be ensured clear of all the sharp edges.

Full sleeves coverall and proper PPEs must be worn for all construction activities.
